

## Kakrao prayer update - September

Dear Friends,

Thank you so much for your support for the Kakrao Project. It's been a long time coming, but I want to take this opportunity to thank you for praying for the project even before it started.

This is certainly a project surrounded with God's blessings. Please do continue to pray!

The project is now underway! It's still very early days, but there will be a flurry of information for you before too long. Just to give you an idea of what's going on, here's a photo of a staff as they receive part of their induction training in the office at Kakamega. They won't do all their training at a desk. The rest of it will be out in the field getting their hands really dirty!

### lease pray

- For the new staff as they
  - Learn to work together as a team
  - Receive all their training and acquire new skills
  - Select the households to work with
  - Do the baseline assessments (so that they can work out the impact that Send a Cow will have had by the end of the project)
- For everyone in this community who has their hope set on Send a Cow helping to transform their lives. Please do pray for patience, as it won't happen immediately.

I'll keep you posted, but am hoping that my next correspondence will bring more detailed news for you.

In the meantime, please do keep praying.

Bless you,

A handwritten signature in cursive script, appearing to be 'Aui'.
